Only comment from Commissioner Champagne, asking for the reason on the shortfall. The Chairman explained, from his research, the VFFD had a board meeting and it was discussed to set the tax rate at \$2.54, more discussion and they agreed to set the tax rate at \$2.45. A week later and not other minutes posted, the rate was approved at the annual meeting at \$2.34. Obviously there wasn't any computation to see the resulting levy.
