Support for Resolution 2017-3

Board of Fire Commissioners

3502 Mendon Road

Cumberland RI 02864

February 22, 2017

Honorable Commissioners:

The wiring harness on Engine 1 had failed, causing the transmission to lock in pump mode and stall the engine. Ralco attempted to find the issue, but the software in his computer was insufficient to diagnose, and his recommendation was to send it to Power Products, an Allison Transmission authorized dealer. Power Products concluded the issue was in the harness and not the transmission, and they recommended sending to Minuteman, who had much better access to wiring diagrams. Minuteman was able to fix the broken wiring and I am asking for your support to pay the invoice amount of \$5,920.99.

Should you have any inquiries please feel free to contact me.

Sincerely,

Chief Kenneth A. Finlay
Cumberland Fire Department
